

March 1, 2019

iSigma Partners Corporation

Acquisition of Data Protection Business of Blueshift K.K. by VarioSecure Inc.

To Whom It May Concern:

VarioSecure Inc. (“VarioSecure” hereafter) which is sponsored by iSigma Business Advancement Fund II Investment LLP managed and operated by iSigma Partners Corporation (“we” hereafter), acquired the data protection business of Blueshift K.K. (“Blueshift” hereafter) on March 1, 2019.

The data backup service jointly developed by VarioSecure and Blueshift and provided under the VarioSecure brand will be re-established as “VDaP-Vario Data Protect”, and we believe such enhancement of technical and managerial alliance will enable us to seek a rapid expansion of the service in the market.

We will continue to provide new values to customers as a security platform by providing solutions to growing demand for mass data backup, releasing new services such as secure temporary data backup solutions for IoT devices and further pursuing collaboration with our current main offering; Managed Security Service.
