iSigma Capital Corporation

Capital and Business Alliance with Yasojima Proceed Co.,Ltd.

iSigma Business Advancement Fund III Investment Limited Partnership (“the Fund” hereafter), managed and operated by iSigma Capital Corporation (“we” hereafter), made an equity participation in Yasojima Proceed Co.,Ltd. (Kobe-shi, Hyogo; “Yasojima Proceed” hereafter) on November 12, 2021.

Yasojima Proceed performs cutting of engineering plastics. In particular, it features industry-leading technologies and an excellent track record in high-precision machining of super engineering plastics. These plastics boast excellent functionality, such as high intensity and high heat resistance, and the processed products are widely used in semiconductor manufacturing equipment. In recent years, Yasojima Proceed has not only been expanding into the medical, automotive and aerospace areas, but is also planning to develop a new market by expanding its range of technologies, such as modeling with a 3D printer.

We will actively support Yasojima Proceed in pursuing further growth and development, as it continues to offer products in the expanding semiconductor market while increasing its focus on the medical, automotive and aerospace areas. Specifically, we will combine the company’s robust business foundations with our management improvement skill sets, while utilizing our parent company, Marubeni’s vast global client network together with initiatives to strengthen the business, such as marketing and the development of strategic partnerships and/or new domestic and foreign sales channels, and the optimization of procurement and logistics.

Yasojima Proceed Co.,Ltd.
